Bounce Ideas, find support for a career move, talk through the options of a sticky project - a mentor can be a real career saver

Use www.lednet.co.za to be matched with a mentor or to offer yourself as a mentor. Our team will provide you with match choices and you take it from there. Mentoring can be done through online coaching, virtual meeting technology, teleconference, and in person. There is no cost for the mentorship program.

Much of economic development is learned on-the-job. Many economic development offices are small, sometimes a one-person shop, so learning from co-workers may not be an option. A mentorship can provide support while you learn and guidance to get through challenging situations.

The mentorship program is sponsored by GROWTHMAP INFONOMICS in support of the economic development profession/industry in South Africa. You do not have to be a client of GROWTHMAP INFONOMICS to participate as a mentor or mentee.
